

# Island Point Newsletter

November

**We have made it to the Holidays, time to celebrate.**

*This is also the last couple weeks of hurricane season*

As you plan your holidays, please remember you share the building with others. Park in your spot, only have guests in the guest parking and do not park a car longer than 15 minutes in the circle. It is for loading and unloading only. Emergency vehicles cannot make it around the circle with cars parked there. They will go into the circle and then we all pay for those damages to the landscaping and sprinkler system.

A new month means you should check those smoke detector batteries. If you need a smoke detector, contact our Pinellas Fire Department they have a free program which will get you a smoke detector for your home. They will also install them for you.

When you are doing your monthly home inspections, check those air conditioner filters. A clogged filter can harm your unit and cause your utility bills to increase along with those repair bills.

If you are recycling, please rinse all the containers and place them in the recycle bins without being in a plastic bag. Also, if discarding cardboard or boxes break them down as they will not fit in the can or dumpster without being broken down.

It is with great sadness that we announce the passing of long time resident Macari Bashara. He will be missed around the building.

**We have a Facebook page and it is a private group and you can join by answering a few questions. This is a great way to stay in touch with your neighbors. It can be found at 644 island way (with spaces).**

## Upcoming Events:

*Don't miss out*

November 24 , 2025 – 6 pm  
Board Meeting in the conference room
